PMC Commercial Trust Announces 2013 Third Quarter and Year-to-Date Financial Results

PMC Commercial Trust
NYSE MKT (Symbol PCC)
www.pmctrust.com

Dallas, TX

November 12, 2013

PMC Commercial Trust (NYSE MKT: PCC) (“PMC Commercial”) announced third quarter and year-to-date financial results today.

Compared to Third Quarter 2012 and Second Quarter 2013

Our income from continuing operations for the third quarter of 2013 was \$398,000 or \$0.04 per share compared to \$645,000 or \$0.06 per share during the third quarter of 2012. Net income decreased to \$323,000 or \$0.03 per share during the third quarter of 2013 compared to \$473,000 or \$0.04 per share for the third quarter of 2012. The primary reason for the decrease in income from continuing operations and net income was a decrease in premium income of \$379,000 from sales of the government guaranteed portions of our SBA 7(a) loans. Our income from continuing operations and net income for the second quarter of 2013 was \$920,000 (\$0.09 per share) and \$846,000 (\$0.08 per share), respectively. The primary reason for the decreases in income from continuing operations and net income of \$522,000 and \$523,000, respectively, was an increase of \$829,000 in transaction costs compared to the second quarter of 2013 related to our proposed merger with CIM Urban REIT, LLC (“CIM Urban”).

Compared to Year-to-Date 2012

Our income from continuing operations for the nine months ended September 30, 2013 was \$2,836,000 or \$0.27 per share compared to \$546,000 or \$0.05 per share during the nine months ended September 30, 2012. Net income increased to \$2,513,000 or \$0.24 per share during the nine months ended September 30, 2013 compared to a net loss of \$97,000 or (\$0.01) per share for the nine months ended September 30, 2012. The primary reasons for the increases in income from continuing operations and net income were (1) an increase in premium income of \$773,000 from sales of the government guaranteed portions of our SBA 7(a) loans and (2) costs of \$3,623,000 related to the evaluation of strategic alternatives incurred during 2012. These increases in income from continuing operations and net income were partially offset by \$1,615,000 of transaction costs related to our proposed merger during 2013.

Proposed Merger

On July 8, 2013, we entered into a merger agreement with CIM Urban. CIM Urban is a private commercial REIT with Class A commercial real estate assets located in premier urban markets throughout the United States. The merger and other transactions were unanimously approved by both PMC Commercial’s Board of Trust Managers (the “Board”) and CIM Urban’s Director.

Pursuant to the merger agreement, CIM Urban and its affiliates will receive approximately 22.0 million newly-issued PMC Commercial common shares of beneficial interest and approximately 65.0 million newly-issued PMC Commercial preferred shares. Each preferred share will be convertible into seven common shares of beneficial interest, which will result in the issuance of an aggregate of approximately 477.2 million common shares of beneficial interest in the merger and other transactions after the conversion. This will represent approximately 97.8% of our outstanding shares.

All PMC Commercial common shares of beneficial interest that are outstanding immediately prior to the transactions will remain outstanding following the transactions. In addition, PMC Commercial shareholders of record at the close of the business day prior to the closing of the transactions will receive a special cash dividend of \$5.50 per common share of beneficial interest, to be paid shortly after closing.

The merger and other transactions are contractually required to be completed no later than December 31, 2013. The transactions are subject to a number of conditions that the parties are working to satisfy. However, no assurance can be given that the transactions will be completed by the end of the year.

Management Remarks

Jan F. Salit, Chief Executive Officer, stated, "On July 8th we announced that we entered into a merger agreement with CIM Urban. We are fully committed to the merger completion and the expected benefits that it will provide to our shareholders. In addition to the cash dividend of \$5.50 per share, our shareholders will remain common equity holders in the combined company. It is anticipated that the merged company will primarily invest in substantially stabilized real estate and real estate related assets in addition to continuing PMC's current business of commercial lending primarily secured by real estate with increased emphasis on our SBA 7(a) originations. We expect to generate additional value for the merged company by:

- expanding the existing CIM Urban portfolio through the acquisition of substantially stabilized real estate and real estate-related assets at yields which are accretive relative to the targeted dividend;
- increasing the leverage of the CIM Urban real estate portfolio from its current ratio to a ratio more in line with the broad universe of REITs, and to the extent additional borrowing is then available, subsequently investing the proceeds into additional investments; and
- expanding over time into new real estate-related activities supported by CIM Group's broad real estate investment capabilities. These activities may include (1) originating and/or investing in a variety of loan products, including, but not limited to, mezzanine loans, commercial real estate loans and other types of loans, (2) real estate development activities to create core property or otherwise, and/or (3) forming an open-ended REIT to raise additional capital from institutional investors, which would involve a joint venture with CIM Urban.

"We are committed to enhancing our core operations by continuing to focus on maintaining and increasing our SBA 7(a) loan origination volume, emphasizing our SBIC loan origination volume and increasing our loan originations outside of our SBA and SBIC programs. We have increased our marketing efforts to identify more loan origination opportunities for SBA eligible loans with a principal amount greater than \$2.0 million and have funded several of these larger loans during the nine months ended September 30, 2013. Despite increased efforts, in many instances if either the opportunities do not meet our underwriting standards, the borrowers do not meet SBA 7(a) eligibility requirements or the loans are able to be financed through more traditional lending sources, we may not be able to continue to originate these larger balance SBA 7(a) loans at these levels. However, we remain optimistic that our marketing efforts will result in additional larger balance SBA 7(a) loan origination opportunities. In addition, we should experience increased revenues if interest rates rise.

“The recent government shutdown which began October 1, 2013 and ended October 17, 2013, affected our ability to originate SBA 7(a) loans during this time. We were not able to get approvals for new SBA 7(a) loans during the shutdown and are dependent upon the Federal government to maintain the SBA 7(a) program. We could be materially and adversely affected by circumstances or events limiting the availability of funds for this loan program. In addition, the budget as approved expires in January 2014. At such time, we could again experience a government shutdown which would affect our ability to originate government guaranteed loans and to sell the government guaranteed portion of these loans in the secondary market.

“While volume “to-date” during 2013 has been lighter than anticipated, with approximately \$35.0 million of fundings, the backlog of unfunded commitments increased to \$28.6 million at September 30, 2013. It is currently anticipated that total fundings for 2013 will be between \$55 and \$60 million with \$30 million to \$35 million being SBA 7(a) originations. We will continue to emphasize SBA 7(a) lending since it provides the highest investment return of any of our lending products.

“We continue to have earnings pressure caused by the historically low level of interest rates affecting our portfolio which is 84% floating rate. In addition, some of our borrowers continue to be affected by the lagging impact of the adverse economic conditions. During 2013, we liquidated five REO properties. We will continue our emphasis on timely liquidation of problem loans. By minimizing the holding periods, we hope to also minimize holding costs.”
